

LaserRed

All Domain Names come with the facility to also have email addresses with your Domain Name, i.e., www.laser-red.com and email address peter@laser-red.com

All email addresses on our servers have the facility to set up an **Auto Responder**, this enables your email account on receipt of an email to send an email back to whoever sent you the email.

Useful if you wish senders to know you received the email or useful if you're away for a few days.

To access this, please go to: [http://ar.\(your domain name\)](http://ar.(your domain name)) , i.e. www.laser-red.com is <http://ar.laser-red.com>

You will see the following on the screen.

Please enter your Email Account Username and Password, if you're not sure of these, contact us.

POP3 User Name:

Password:

Enter these and follow the onscreen commands, easy to follow, see below for the view of mine.

Disabled
 Enabled

Subject:

Message:

Regards

Peter
Laser Red Ltd.

M: 078780 45252

Click on '**Update Auto-Responder**' when you're happy with your response.
